PRESIDENTS REPORT

I would like to thank Chris Quinn for his input into the newsletter for the time and effort he has put in. Julie Minster is now in charge of it and I am sure would welcome any articles and photos of car club related activities. These activities need not be with our club, it can be with another club you are in.

It has come to my attention that within the club we seem to have some misunderstandings leading to frustration, unrest and anger amongst some of our members. I would urge you all to read the statement of purpose for our club which was voted on at our last AGM .Our club is basically a social club catering for all types of collectable cars .We aim to enjoy each other's company on club runs and talk about our interests. Kathi at our last general meeting explained why her late husband set the club up initially and that it was for a group of friends to get together and enjoy each other's company and drive their "collectable vehicles ".

We endeavor to have around 100 activities a year to enable members to participate in some of them so we can get to know each other better.

I think some of the newer members may not be aware of the history so may not fully understand the position of the club.

At our next general meeting we are required to vote on an amendment of our constitution and some additions to it to enable it to be accepted by the consumer affairs .The only amendment is a change from majority vote of 2/3 to ¾ for a motion to be accepted at a general meeting. The additions required are an expansion of what was voted on at our last AGM in order to comply with current regulations set out by consumer affairs .If we do not pass this amendment and additions then I believe the club will not be incorporated .

I would also like to remind you that the club members altered the constitution before it was voted on at the last AGM and that those present voted for these changes. If you would like to have a better understanding of our constitution please take the time to read or reread it as we have put considerable time and effort into it to ensure it maintains the spirit of what our club founders set out to achieve.

Enough of the administrative material and on to the more pleasant things .The weather has been good so out with the vehicles and down the road for a drive to blow out the cobwebs and meet fiends for a coffee or BBQ .Keep those wheels turning and make the most of the weather before it turns wet and rainy.

KANA WIN WELL DONE COLAC COLLECTABLE CAR CLUB !

To those members involved in Kana Saturday 15th March who entered the Kana Parade you bought home the bacon 1st prize in best entrant for Kana 2014 I think this is a first for our Club.

Well Done! The certificate below was winning prize!

This page is designed for you the member to have input into our club events.? You can remain anonymous and jot down any thoughts or ideas you may like the club to participate in. Friday Nights are usually WITH runs which stands for Wind in the hair runs. We do not necessarily have to have Friday night runs or Sunday morning or afternoon tea. We could try for all day events or even a few Saturday night events just to trial and meet a majority of peoples social availability and needs. Also check out what's available to participate in! Google is our best friend to see what is occurring when & where.

After completing this page with your thoughts and interests please cut this page out and leave your details at RIVERS STORE for Tracie, or myself Julie at 12 Irrewillipe Road, just pop it into my mail box. Thanks for your input it is valued.

LETS PUT THE FUN BACK INTO OUR CLUB!
