“Wind in the Hair” NEWSLETTER

December, 2023 – March, 2024

A WORD FROM OUR PRESIDENT

Hello everyone:

I hope that our new newsletter finds you all well. Can you believe it is already November. Where has the year gone? Christmas will be here in the blink of an eye. Don't write the year off yet though as we have some great events coming up on the 'Runs Calendar' before we hit 2024!

There are a couple of dinner catch ups:- the first is on Wednesday, 15th of November at the Golden Sky Indian Restaurant in Colac and the second at the Ti Tree Hotel in Warrion on Friday, 17th November. Both have great meals. Then we have the Noorat Show and the Sunday Funday at the Cobden Pioneer Park - both of these events having car shows. On Sunday, 3rd December after our usual monthly coffee catch up at the Farmers Arms Hotel in Beac, we have a barbecue and shed tour at one of our member's residence. I can promise that this won't disappoint. Of course, we have our regular Red Robin Cafe coffee catch up and our last General Meeting on Sunday, 10th December with a barbecue lunch afterwards. We then finish off the year with a New Year's Eve barbecue at Julie and Chris Minster's house.

Quite a number of newsletters ago, I wrote about a '65 Split Screen VW Kombi Camper, Sally and I are having restored. Progression on this has been really slow this year but we are hoping it should be finished early next year. Being gluttons for punishment, we saw a '73 Bay Window Kombi Transporter for sale at the right price. The body work had already been repaired and painted but it needed a few things done in the interior.

Mmm...retirement project? Why not we thought!

Off to Werribee to check it out, and yes. we bought it. On the way home she was cruising along fine until suddenly she backfired twice and stopped and then the comedy of errors started. On checking the motor there was oil sprayed around the engine bay. The engine would turn over but not fire up. Being a tinkerer and not a mechanic I checked what I could. The electrics seemed fine so next port of call was to contact the RACV.

After an hour or so they turned up, had a quick look and came to the conclusion we had either blown a head gasket or worse still the motor, either way we would need to be towed. Our project may be bigger than we thought! After a further 5-hour wait on the side of the road, the tow truck finally turned up and we were on our way home.

A WORD FROM OUR PRESIDENT (Continues)

We have been taking our cars to Paatsch Automotive in Colac for some time now, so we had the Kombi dropped off there to be checked out. The owner Gavin, who is one of our members, checked it out for us. He very quickly discovered that the distributor was loose and had moved putting the timing out. A bit of adjustment and she fired up. Thankfully an easy fix. So much for the skills of the RACV mechanic. We left the van with Gavin to do the roadworthy for the Club Permit.

I then received a phone call from Gavin telling me that the Australian Compliance plate had the seating capacity for the van listed as 2. Being a transporter, it had 8 seats which seemed really strange. I checked the chassis number and the van was definitely manufactured as a 'Kombi', which stands for combination van. (The German word for combination starts with a K.) With a combination van you can have either 8 passengers or remove either one or two of the rear seats and use it to transport goods.

After contacting some other Kombi owners, I discovered that it was not uncommon for the 1973 Kombi Compliance Plates to only have seating capacity for 2 listed. Maybe the rear seats were not fitted until after they were imported. I'm not sure. Anyway, off to Melbourne with the van on a trailer to see an Engineer to have our rear seats certified. All went well and looked like it was an easy tick off until he went to look at the Compliance Plate which is located behind the driver's seat. The van had been updated with inertia reel seat belts in the front and the brackets used to fix them to the van did not comply so he wouldn't issue a certificate. *Bugger!!* Not happy, as it was only the back seats that he was supposed to be checking...

On return to Colac, we dropped into see Damien at Genua Brothers Steel Fabrication who made us some new compliant brackets straight away. A 5-minute job to fit them and back to the engineer for the final tick off. All part of the fun and learning curve.

You'll get to see the van on one of our runs soon. Take care and stay safe. Ken (President)

Back in August, 2023 a Colac Collectable Car Club member put a request out via email hoping that another club member could assist in transporting his son and friend to and from a Secondary School ball. He was looking for a 1930's vehicle and following the request being sent to our members, we had one member offer assistance. Thanks to member Shane for offering his 1925 Crossley Tourer – a perfect vehicle choice for the occasion and even colour matched with the student's clothing.

What a successful evening it was!

PRESIDENT'S REPORT: Ken Slingsby

Now with the warmer weather it's time to get your cars out and to check tyres and tyre pressure. There are a lot of potholes. The turnout to Beeac was excellent, even though it was Father's Day

TREASURER'S REPORT: David Stephens

Income from late membership payments, and payments made for AOMC membership, Corporate Affairs, Red Robin Café reimbursement, Scouts for catering and hall hire.

CLUB PERMIT SCHEME AND AOMC REPORT: Geoff O'Neill

Geoff attended a regional meeting of the AOMC and there were approximately 60 in attendance. The Federation and AOMC are still looking to combine. The meeting had a very interesting guest speaker :- Nick Scarff. A young enthusiast who is studying for a Degree in Design. His thesis is the marketing of early Jaguars in Australia. Member of the Jaguar Car Club and the Vintage Drivers Club. Nick gave an outline of his background with classic jaguars and his reasons for undertaking his thesis, highlighting the lack of academic histories on automobiles. He then gave an overview of his thesis, including a background on Brysons Industries who imported Jaguars in the 1960s.

Geoff also mentioned the recent concerns and problems with processing of permits at VicRoads.

HAMILTON AND DISTRICT – HERE WE COME !

After many months of planning by Annette and Vince Thorne, it was time to pack the boot of the car and head to Mortlake and meet up with other Colac Collectable Car Club members; on our way to Hamilton. Our weekend tour of Hamilton and district, took place on the weekend 16th and 17th September.

We met at the usual spot, Tea Tree Lake Reserve (where the Federation hold their annual picnic event) and after a quick introduction from Annette, we headed off to our first stop, Narrapumelap Homestead, Wickliffe. We dodged the potholes but enjoyed ‘keeping an eye out for the many items that Annette had listed on a ‘Spotto Sheet’.

We arrived at the Homestead and were greeted by the owner who gave us a very detailed tour of the Homestead. What a work in progress the homestead is! Built in 1873, Narrapumelap Historic Homestead is considered to be one of rural Australia’s finest examples of French Gothic Revival Architecture. Lots of restoration work has been done and is going to be done. We were treated to a scrumptious morning tea in the drawing room; then a group photo was taken on the steps of the homestead.

Our next destination was to the Hamilton Botanical Gardens for a quick lunch break before heading out to Wannon and Nigretta Falls. We ventured a little further and visited the Coleraine Chocolate Factory, stocking up on delicacies which we didn’t really need, but hey, why not!!

Back in to Hamilton and we settled into our accommodation at the Bandicoot Motel with ‘drinks, nibbles and happy hour’. Thanks to Annette and her helpers for providing a wonderful chicken and salad meal in the motel’s dining room. This was followed by a games session with lots of laughs including “pin the wheel on the car game”? Who won – who cares, it was a fun time enjoyed by all.

HAMILTON- HERE WE COME (CONTINUED) !

On Sunday, it was time to visit one of the most visited local attractions in Hamilton, Campe's Motor Museum. This collection of cars, bikes and memorabilia has been a personal passion of one gentleman and is every motor enthusiast's dream come true. The museum has been a work in process for more than three decades and includes a 1955 Ansett Clipper Bus, a 1933 Citroen and a 1929 Stutz.

Following our Campe's Motor Museum tour, we then headed to the clubrooms of the Hamilton Car Club where members treated our group to a delicious BBQ lunch with salads and dessert. There was a varied display of member cars on display.

After enjoying the hospitality from members of the Hamilton Car Club, we then headed for home; but not before calling in to Peshurst to the Visitors Information Centre for a talk about the Volcanic districts around Peshurst followed by a drive up to the summit of Mount Rouse.

A special thank you to Annette and Vince for putting this weekend get-away together. The weekend was thoroughly enjoyed by everyone who attended.

A great itinerary, warm and sunny weather, excellent food, suitable accommodation and we look forward to being able to do this (or similar) again in 2024.

A WELL-DESERVED LIFE MEMBERSHIP PRESENTED

At our General Meeting on 10th September, 2023, it was the pleasure of our President Ken Slingsby to present a Life Membership to one of our long-serving members, **Graeme Chislett**.

Graeme was a little speechless when he received his award at the meeting, but I caught up with Graeme recently who wishes to express his thanks to the Club, the Committee and its members for the presentation. Graeme has been a very active member of the club since 1995. As the Club only began in 1993, Graeme has virtually been a member of the club since its inception. Graeme has taken on the role of President for 2 years, was Vice President and Runs Organiser for many years, Treasurer for 1 year, Club Safety Officer plus Scrutineer, also for many years. Graeme was certainly taken aback with his presentation; he has thoroughly enjoyed his time with the club and wishes more people would get involved in the running of the Club. He said it was great to meet up with other people who had the same interest as he has, cars; his Austin Healey that he has owned for many years is probably his most favourite car. Graeme also mentioned the amazing runs he has been on including the Murder Mystery weekend to Rusty Springs, Avenel; the Great Alpine Road trip from Colac, Bright, Dinner Plain to Omeo, Sale and the Sorrento-Queenscliff ferry back to Colac...and numerous other day trips, too many to note. Graeme was certainly a worthy recipient of a Life Membership to the Colac Collectable Car Club, and we congratulate him on his award. Congratulations Graeme.

BAY TO BIRDWOOD - 2023

On a recent trip to South Australia, we were fortunate enough to attend the 2023 Bay to Birdwood. We were in Adelaide to surprise our son who was competing in the World Solar Car Challenge which Deakin University had an entry (but this could be another story in itself).

Bay to Birdwood is an iconic event and one of the world's great historic motoring events. It is held annually at Birdwood, in the Adelaide Hills.

Unbeknown to us, Colac Collectable Car Club members Chris and Malcolm were also in Adelaide and had driven their Austin Healey from Colac to Adelaide. The Bay to Birdwood commences at West Beach and all cars drive to the National Motor Museum in Birdwood, a logistical exercise to get all cars and bikes parked safely at Birdwood.

Bay to Birdwood is about vehicles, history and people. Here are just a few of the cars we spotted:-
