A big thankyou to all the members that turned up for the red plate photo's on Saturday the 23rd. We had a great roll up.

All members Please think about the AGM that is coming up this is your club, we need new people to take on these positions.

Also if you have an idea of a good club run you can organize it, we will help and just put it in the newsletter. Even if it is a cruise around Kyneton and stop at a coffee shop that's just gets people out and having fun.

CLUB PERMIT SCHEME

Members with cars permitted through the Club are reminded that the Vicroads club permit scheme carries a number of obligations including

- Only financial members are able to participate in the scheme.
- Cars must be maintained in a safe condition at all times and it is the owner's responsibility alone to ensure this.
- The owner must correctly complete and carry the log book when the car is used.
- Members must notify the registrar of the disposal of a Club permitted car.

.....
Newsletter Material to be in the Last Week of each Month.

Thank You.

Ballarat's only indoor car/bike show .
27th Sun Wallan Swap meet.

FROM THE PRESIDENT. BEN HUNTER

After 2 years as your car club president, I wonder about the advantages & disadvantages of belonging to our club,

The advantage is good fellowship shared with people with common interest of cars, getting together to talk and show off their pride and joy.

The rally's organised by our members have been well supported and my grateful thanks to the ones who run these rally's.

The disadvantage for people like myself is, it is difficult to find the time to be fully involved or come to the required attendance to 2 club meetings and 2 yearly functions/rally's at our club, to achieve this has been difficult and I have had some interesting discussions about reasons for the inability to attend. One of the alternatives of course is to forgo the cheap red plate registration and fully register your car. I am sure that the extra cost between normal registration and red plates is worth the inconvenience of these rules for the sums saved on our registration costs, so I urge you to become involved in the club as a committee member or organise a run that you would like to attend.

MYSTERY Car OF THE MONTH

Last month's mystery truck
Siamese twin Ford. This was the
only one built for Smeets flour
mill of Roermond in the
Netherlands.

Good Luck this month what is
it.....
